Cherry-Picked Changes

Commit	Description
language_model_core	Restore file mode + detect context overflow
agent: auto-compact	Auto-compact thread on PromptTooLarge
agent: fix run_command	Alias + robust tool input parsing
agent: serialize	Concurrent mutating tool calls per scope
agent: debug logging	Tool dispatch + streaming debug logs
open_ai: finish_reason	Treat "stop" as tool_calls when pending
fix: SIGPIPE	Prevent exit when LLM stream drops
fix: trim whitespace	Stringified JSON value parsing

Agent Crate Architecture

Module	Lines	Role
<code>thread.rs</code>	7.759	Core runtime — completion loop, tool dispatch, compaction
<code>agent.rs</code>	6.624	Public API, re-exports, context server binding
<code>tool_permissions.rs</code>	2.415	Security rules, regex allow/deny, symlink detection
<code>tools.rs</code> + 23 tools	~15k	Tool registry, feature flags, built-in tools
<code>templates.rs</code>	—	Handlebars system prompt + edit-file prompt
<code>sandboxing.rs</code>	—	macOS Seatbelt terminal sandbox

Custom Modifications

Change	File
Auto-compact disabled by default	<code>assets/settings/default.json</code>
edit_file + write_file tools set to "allow"	<code>assets/settings/default.json</code>
Fix audio_settings unwrap() panic	<code>crates/audio/src/audio_settings.rs</code>
4 new terminal tool tests	<code>crates/agent/src/tests/mod.rs</code>
Debug log script	<code>script/tool-debug-log</code>

Installed Skills

Skill	Source	Description
create-skill	Built-in	Create new agent skills
visual-page	Global	HTML visualizations, diagrams, charts
pdf	Global	PDF create, read, fill, merge
gpui-test	Project	GPUI test debugging
zed-cherry-pick	Project	Cherry-pick to preview/stable
